

**UNIVERSAL
BARREL SHROUD
FITS MOST 12 GAUGE SHOTGUNS**

Installation

1. Remove barrel from shotgun and insert into shroud brackets.
2. Form rear circular bracket to fit largest diameter of barrel.
3. Close forward clamp with pliers and install screws, washers and nuts. Tighten securely.

**NOTE: BE CERTAIN
REAR BRACKET DOES
NOT INTERFERE WITH
ACTION BAR.**

In some cases it may be
necessary to remove
enough metal from ends
(approximately 1/16")
