WHAT'S IN THE BOX:

- Sunshade
- Lens Cloth
- 2mm Wrench
- Turret Tool
- Rubber Style Lens Covers
- Throw Lever
- CR2032 Battery
- Product Manual
- Reticle Manual

PREPARE FOR IMMEDIATE IMPACT.

When you're ready to step up your long-distance game, the Strike Eagle® gives you more of the tools you need for less than you'd expect. Start with excellent edge-to-edge sharpness, and add a first focal plane (FFP) illuminated reticle for fast reads at any magnification and lighting situation. Add in our RevStop™ Zero System for a hard return to zero, and locking turrets for fast, stay-put adjustments. Build it around a 34mm tube that accommodates massive amounts of elevation and windage travel, add a throw lever for rapid magnification changes, and you've got a long-distance impact machine that'll have you wondering how you ever shot without it.
